RE: Utility Waste Landfill (MO Permit #0918301; Facility #04303)  
Ameren Missouri Sioux Power Plant  
St. Charles County, Missouri

Dear Mr. Sheehan:

The purpose of this letter is to notify St. Charles County of the annual Utility Waste Landfill inspection that took place at the Sioux Plant as required by our operating permit. The inspection was performed on October 19, 2011 by a Registered Professional Engineer. The Utility Waste Landfill Surface Impoundment was found to be designed, maintained, and operated in accordance with general accepted engineering standards as required by the permit. No significant dam safety deficiencies were identified. Inspection Check Sheets have been completed and are filed in the internal Ameren record keeping system.

If you have any questions or require additional information, please do not hesitate to contact me at (314) 957-3406 or Glenn Eberhart at (314) 957-3353.

Sincerely,

A handwritten signature in black ink that reads "Thomas L. Hollenkamp".

Thomas L. Hollenkamp, P.E., S.E.  
Chief Dam Safety Engineer
